

Sophie Bell

Archaeological Researcher

BA (Hons), Cantab.

Sophie joined RPS CgMs after graduating from university. She has experience completing archaeological research for Desk-Based Assessments and Archaeological Impact Assessment. She also has experience working with Anglo Saxon material and utilising early medieval written documents.

Experience

Sophie recently joined RPS CgMs in July 2018 after graduating with a degree in Anglo Saxon, Norse and Celtic from Selwyn College, University of Cambridge. Whilst studying for her degree, Sophie was trained to utilise many different sources when undertaking research.

Sophie has experience in conducting research on a wide variety of sites in the UK that differ in size, complexity and archaeological potential. She has conducted research for a range of sites in England and London. Her research has been utilised in the preparation of reports for major schemes, including large housing developments, property extensions and the conversion of school buildings into residential properties.

Whilst studying for her BA in Anglo Saxon, Norse and Celtic, Sophie received training on aspects of practical and theoretical archaeology, with a focus on the archaeological materials of the North Sea. She specialised in early Anglo Saxon and Irish funerary monuments, and in the use of Anglo Saxon charters.

Key Projects

Springwell Barn, Rickmansworth

Conducting comprehensive and documentary research for the preparation of an archaeological desk-based assessment, and carrying out a site visit.

Carrow Works, Norfolk

Conducting comprehensive documentary research for the preparation of an archaeological desk-based assessment and built heritage site assessment.

Wyevale Garden Nursery, Binfield

Conducting comprehensive and documentary research for the preparation of an archaeological desk-based assessment.

Hydebrook House, Welwyn Garden City

Conducting comprehensive and documentary research for the preparation of an archaeological desk-based assessment.
