

**Greg Pugh** BA (Hons), MIFA  
Director (Archaeology)

### Professional Qualifications

BA (Hons) Archaeology (1993)  
Member of the Institute of Field Archaeologists

### Career Profile

2007 to date	Director, CgMs
May 2004 - 2007	Senior Associate Director, CgMs Consulting
January 2001 – May 2004	Contracts Manager, Oxford Archaeology (OA)
September 1998-December 2000	Contracts Officer, OA
Spring 1998- September 1998	Assistant Contracts Officer, OA
1997- Spring 1998	Site Manager, OA
1996-1997	Site Supervisor, OA
1995	Assistant Supervisor, OA
1993-1995	Field Technician and Research Assistant, OA

### Relevant Experience

Greg leads the archaeological team in Cheltenham and is responsible for providing advice on all aspects of archaeology to a wide variety of clients. He has experience in all facets of archaeology in the planning process, including consultancy, excavation and post-excavation. Before joining CgMs, Greg was Contracts Manager for the largest archaeological contractor in the UK, dealing with costs and tenders for all fieldwork jobs, varying from small church watching briefs to large excavations and multi-discipline infrastructure schemes in the UK and Europe. This has given him a keen commercial awareness. Greg has particular experience of the mineral extraction industry as well as housing developments and linear schemes.

### Project Examples

**Cardiff St David's Retail Development (Land Securities)** – Archaeological Consultant to a major City Centre Development Project requiring Desk-Based Assessment and project management of complex site. The evaluation stage included organising the investigation of the Oxford Arcade site, while the shopping arcade was still in use. The project is on going.

**Diglis Basin, Worcester** – Provided Consultant Services to Barton Wilmore and Taylor Woodrow on this large mixed-use scheme on the bank of the River Severn. Facilitating the issues of contamination and water with the need to satisfy the local authority's archaeological conditions, Greg adopted strategies that satisfied all parties, minimising the impact of archaeological works on the programme and budget of the development.

**Innsworth/Longfrod, Gloucestershire** – Strategic Housing Scheme (Robert Hitchins Ltd) Archaeological Consultant to the EIA and Design Team for this large housing development scheme. Produced Desk-Based Assessment, EIA chapter and organised an extensive fieldwork programme to help reduce the archaeological risk to the development.

**Oxford Castle Redevelopment Project (Oxford Castle Limited - an Osborne Group Company)** Provided advice and estimates for this major project in the centre of Oxford, which includes redevelopment of the castle and prison site to include a hotel, restaurants, heritage interpretation centre, market stalls, shops and serviced apartments. The archaeological work included production of Desk-Based Assessment, specifications, evaluation, excavation, building recording as well as public and private seminars. The site was also featured on BBC1 'Meet the Ancestors' television programme.
