

## Suzanne Gailey

### Director

BA (Hons) MA MCIFA

Suzanne has over 15 year's archaeological experience as a heritage professional in both the public and private sector. Suzanne specialises in providing archaeological support for a wide range of projects from small urban redevelopment sites to large strategic greenfield sites

### Experience

Suzanne's extensive career as a commercial field archaeologist, Historic England archaeological advisor and archaeological consultant has provided her with a wide range of skills and detailed knowledge of archaeology and the planning system. She is a member of the Chartered Institute for Archaeologists.

Suzanne regularly advises clients at both the pre and post planning stages and has extensive experience in working within multi-disciplinary teams. She has produced a wide range of archaeological desk based assessments and archaeological impact assessments and had input into numerous Environmental Impact Assessments relating to residential, commercial and other development projects including Nationally Significant Infrastructure Projects.

Suzanne has considerable experience in overseeing the management and coordination of archaeological evaluations and excavations through the development process ensuring the work is undertaken on time and within budget.

Suzanne is one of the Directors within the London Archaeology Team.

### Key Projects

#### **Harold Wood Hospital, Romford Countryside Properties**

Input into an EIA and following planning permission management of a programme of archaeological mitigation measures leading to the discharge of the planning condition

#### **Edison Primary School, Hounslow Bowmer and Kirkland**

Archaeological requirement signed off at the pre-application stage following preparation of Archaeological DBA.

#### **Marringdean Road, Billingshurst, Rydon Homes**

Successfully negotiated an appropriate mitigation strategy that led to significant cost and time reductions for the client

#### **Henley Gate, Ipswich Crest Strategic Projects**

Input into an EIA and masterplanning to achieve outline planning permission on large scale 'garden suburb' development

#### **Manston Green, Ramsgate Cogent Land LLP**

Permission gained for large scale residential development with nationally significant heritage constraints

#### **Land East of Billingshurst Devine Homes, Persimmon Homes and Bellway Homes**

Management of complex suite of fieldwork including geophysical survey,
