

## Sylvia White

### Archaeological Consultant

BA (Hons) PCIfA

Sylvia has in-depth experience in researching a wide variety of sites across England. She has experience in undertaking a range of archaeological reports, including Desk-Based Assessments, Archaeological Impact Assessments, and Environmental Statement chapters.

## Experience

Sylvia joined CgMs as an Archaeological Researcher in 2015 after completing an undergraduate degree in Archaeology. Her role as an archaeological researcher involved archaeological, historical and cartographic research to facilitate the preparation of archaeological and heritage assessments produced by the CgMs London archaeology team and frequently other CgMs offices around the UK as well.

Sylvia has since progressed to Archaeological Consultant. In this role she has produced numerous archaeological and cultural heritage desk based assessments, as well as archaeological impact assessments and ES chapters. Sylvia coordinates and oversees archaeological fieldwork and her expertise includes the liaison with clients and archaeological advisors to agree appropriate archaeological strategies for sites, in order to successfully discharge archaeological planning conditions.

Sylvia is currently involved in a number of large and small scale residential schemes across London and the South East.
