Specialist & Independent Advisors to the Property Industry

Marsh Lane

Client

Marie Curie Cancer Care

Location

Solihull

Services Provided

Archaeology

Date of Completion

October 2009

Key Issues

Archaeology highlighted as an issue late on in application process

Rapid response to address concerns and eliminate archaeological risk by preparation of a desk-based assessment

Rapid preparation of a desk-based assessment by CgMs, submitted as supporting documentation to the planning application, ensured that the risk of archaeology to this site's development as a specialist palliative care facility was eliminated.

Planning consent was granted with no requirement for further archaeological investigation.
