Specialist & Independent Advisors to the Property Industry

Camden Road Overground Station

Client

British Transport Police

Location

Camden Road, Camden, London. NW1

Services Provided

Historic Buildings

Date of Completion

March 2015

Key Issues

Heritage Statement, Pre-application Advice

Listed Building Consent Submission

Liaison with LPA until determination

The CgMs Historic Buildings Team advised the British Transport Police on internal alterations to the Camden Road Overground Station ticket hall and reconfiguration and refurbishment works at the British Transport Police's offices at first floor level above. The station is Grade II listed and the extant ticket hall is of high architectural significance to the station owing to its high levels of historic fabric. CgMs completed a detailed pre-application heritage statement, LPA liaison including an on-site pre-application meeting, design team direction, completion of the supporting heritage statement, application submission and liaison with the LPA until determination. The British Transport Police's retained designers for the project were GVA Grimleys.
